

103" at High Speed Club

Involved : 3 x 103", 1 x 65" & 7 x 42"
End user : Circuit Paul Ricard
Placement : Gonfaron, France
Install Date : March 2008
Partners : IEC

Three 103" Plasma's have been installed as the flagship models to replace an older projector install at the Paul Ricard High Speed Circuit Club in Gonfaron, France.

PRESTIGIOUS SITE, PRESTIGIOUS PRODUCT

The replacement of original projectors with three of the World's Largest Plasma Displays is an impressive measure.

Flat panel display is less bulky and with it's sleek design fits stylishly and quietly into the Café surroundings.

Guests at the Paul Ricard High Speed Circuit club can enjoy up to date race information and replays of the latest track days. Satellite feeds the three giants along side a 65" Panasonic Plasma & no less than seven 42" models.

A mixture of live feeds and race replays make for a perfect signage and entertainment solution for this application

A Life-size Toyota F1 car has also been installed at the site due to Panasonic's Sponsorship of the team

Commenting on the installation, Remi Gillot from Paul Ricard;

"It is a prestigious site that deserves a prestigious product". The right Integrator and the Panasonic 103" Plasma are the perfect combination for the Circuit at Gonfaron.

Key Facts

- Replacement of original Projectors
- Right solution for Entertainment / Media wall
- Right combination of Integrator & product
- Perfect sizes and viewing angle
